

# Education Provider List for Apprenticeship

As an Apprenticeship Sponsor, you can partner with any college, university, technical school, or education vendor that has the capability to provide the relevant instruction outlined in your Program Standards. Your program can utilize existing course offerings or components of degree and certificate programs. Many community colleges, adult education programs, and technical schools have experience designing instruction around the needs of apprenticeship programs. Sponsors with in-house training capacity may create and deliver instruction in-house.
