SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

2017 American Community Survey 1-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Subject	Rhode Island			
	Estimate	Margin of Error	Percent	Percent Margin of Error
HOUSEHOLDS BY TYPE				
Total households	408,748	+/-4,427	408,748	(X)
Family households (families)	251,811	+/-6,010	61.6%	+/-1.3
With own children of the householder under 18 years	103,757	+/-4,693	25.4%	+/-1.1
Married-couple family	186,052	+/-5,142	45.5%	+/-1.1
With own children of the householder under 18 years	70,544	+/-4,039	17.3%	+/-1.0
Male householder, no wife present, family	16,342	+/-2,108	4.0%	+/-0.5
With own children of the householder under 18 years	7,261	+/-1,474	1.8%	+/-0.4
Female householder, no husband present, family	49,417	+/-3,606	12.1%	+/-0.9
With own children of the householder under 18 years	25,952	+/-2,951	6.3%	+/-0.7
Nonfamily households	156,937	+/-5,506	38.4%	+/-1.3
Householder living alone	132,122	+/-5,356	32.3%	+/-1.3
65 years and over	54,516	+/-2,816	13.3%	+/-0.7
Households with one or more people under 18 years	113,620	+/-4,689	27.8%	+/-1.1
Households with one or more people 65 years and over	125,745	+/-2,254	30.8%	+/-0.5
Average household size	2.49	+/-0.03	(X)	(X)
Average family size	3.19	+/-0.06	(X)	(X)
RELATIONSHIP				
Population in households	1,017,715	*****	1,017,715	(X)
Householder	408,748	+/-4,427	40.2%	+/-0.4
Spouse	185,108	+/-5,063	18.2%	+/-0.5
Child	304,477	+/-6,482	29.9%	+/-0.6
Other relatives	63,063	+/-5,813	6.2%	+/-0.6

Subsaharan African	31,487	+/-4,923	3.0%	+/-0.5
Swedish	16,077	+/-3,027	1.5%	+/-0.3
Swiss	1,016	+/-456	0.1%	+/-0.1
Ukrainian	5,644	+/-2,747	0.5%	+/-0.3
Welsh	2,791	+/-972	0.3%	+/-0.1
West Indian (excluding Hispanic origin groups)	9,006	+/-2,843	0.8%	+/-0.3
COMPUTERS AND INTERNET USE				
Total households	408,748	+/-4,427	408,748	(X)
With a computer	366,615	+/-5,647	89.7%	+/-0.8
With a broadband Internet subscription	349,557	+/-5,820	85.5%	+/-0.9

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Demographic Table).

Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico, U.S. Island Areas or born outside the U.S. to a U.S. citizen parent and who subsequently moved to the U.S.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

Data about computer and Internet use were collected by asking respondents to select "Yes" or "No" to each type of computer and each type of Internet subscription. Therefore, respondents were able to select more than one type of computer and more than one type of Internet subscription.

The category "with a broadband Internet subscription" refers to those who said "Yes" to at least one of the following types of Internet subscriptions: Broadband such as cable, fiber optic, or DSL; a cellular data plan; satellite; or a fixed wireless subscription.

An Internet "subscription" refers to a type of service that someone pays for to access the Internet such as a cellular data plan, broadband such as cable, fiber optic or DSL, or other type of service. This will normally refer to a service that someone is billed for directly for Internet alone or sometimes as part of a bundle.

"With a computer" includes those who said "Yes" to at least one of the following types of computers: Desktop or laptop; smartphone; tablet or other portable wireless computer; or some other type of computer.

Caution should be used when comparing data for computer and Internet use before and after 2016. Changes in 2016 to the questions involving the wording as well as the response options resulted in changed response patterns in the data. Most noticeable are increases in overall computer ownership or use, the total of Internet subscriptions, satellite subscriptions, and cellular data plans for a smartphone or other mobile device. For more detailed information about these changes, see the 2016 American Community Survey Content Test Report for Computer and Internet Use located at <https://www.census.gov/programs-surveys/acs/methodology/content-test.htm> or the user note regarding changes in the 2016 questions located at <https://www.census.gov/programs-surveys/acs/technical-documentation/user-notes.html>.

While the 2017 American Community Survey (ACS) data generally reflect the July 2015 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineations due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2017 American Community Survey 1-Year Estimates

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance.

Workers include members of the Armed Forces and civilians who were at work last week.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2012. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 -- please see https://www.census.gov/library/working-papers/2010/demo/coverage_edits_final.html for more details. The 2008 data table in American FactFinder does not incorporate these edits. Therefore, the estimates that appear in these tables are not comparable to the estimates in the 2009 and later tables. Select geographies of 2008 data comparable to the 2009 and later tables are available at <https://www.census.gov/data/tables/time-series/acs/1-year-re-run-health-insurance.html>. The health insurance coverage category names were modified in 2010. See https://www.census.gov/topics/health/health-insurance/about/glossary.html#par_textimage_18 for a list of the insurance type definitions.

Beginning in 2017, selected variable categories were updated, including age-categories, income-to-poverty ratio (IPR) categories, and the age universe for certain employment and education variables. See user note entitled "Health Insurance Table Updates" for further details.

While the 2017 American Community Survey (ACS) data generally reflect the July 2015 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineations due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2017 American Community Survey 1-Year Estimates

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

SELECTED HOUSING CHARACTERISTICS

2017 American Community Survey 1-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

SELECTED MONTHLY OWNER COSTS AS A PERCENTAGE OF HOUSEHOLD INCOME (SMOCAPI)				
Housing units with a mortgage (excluding units where SMOCAPI cannot be computed)	171,802	+/-5,614	171,802	(X)
Less than 20.0 percent	67,701	+/-3,288	39.4%	+/-1.8
20.0 to 24.9 percent	29,140	+/-2,756	17.0%	+/-1.5
25.0 to 29.9 percent	20,617	+/-2,040	12.0%	+/-1.2
30.0 to 34.9 percent	13,250	+/-1,924	7.7%	+/-1.1
35.0 percent or more	41,094	+/-3,449	23.9%	+/-1.6
Not computed	573	+/-495	(X)	(X)

Subject	Rhode Island			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Housing unit without a mortgage (excluding units where SMOCAPI cannot be computed)	75,880	+/-3,719	75,880	(X)
Less than 10.0 percent	26,759	+/-2,634	35.3%	+/-2.7
10.0 to 14.9 percent	15,290	+/-1,609	20.2%	+/-2.0
15.0 to 19.9 percent	8,248	+/-1,194	10.9%	+/-1.5
20.0 to 24.9 percent	5,292	+/-957	7.0%	+/-1.2
25.0 to 29.9 percent	4,983	+/-957	6.6%	+/-1.2
30.0 to 34.9 percent	3,587	+/-867	4.7%	+/-1.1
35.0 percent or more	11,721	+/-1,655	15.4%	+/-2.0
Not computed	468	+/-293	(X)	(X)
GROSS RENT				
Occupied units paying rent	154,825	+/-4,583	154,825	(X)
Less than \$500	30,892	+/-3,125	20.0%	+/-1.9
\$500 to \$999	56,895	+/-3,643	36.7%	+/-2.3
\$1,000 to \$1,499	46,327	+/-3,802	29.9%	+/-2.2
\$1,500 to \$1,999	15,415	+/-2,173	10.0%	+/-1.3
\$2,000 to \$2,499	2,931	+/-976	1.9%	+/-0.6
\$2,500 to \$2,999	1,097	+/-540	0.7%	+/-0.3
\$3,000 or more	1,268	+/-631	0.8%	+/-0.4
Median (dollars)	941	+/-19	(X)	(X)
No rent paid	5,200	+/-1,289	(X)	(X)
GROSS RENT AS A PERCENTAGE OF HOUSEHOLD INCOME (GRAPI)				
Occupied units paying rent (excluding units where GRAPI cannot be computed)	150,957	+/-4,874	150,957	(X)
Less than 15.0 percent	24,457	+/-2,859	16.2%	+/-1.7
15.0 to 19.9 percent	16,973	+/-2,051	11.2%	+/-1.3
20.0 to 24.9 percent	18,124	+/-2,565	12.0%	+/-1.6
25.0 to 29.9 percent	22,570	+/-2,867	15.0%	+/-1.8
30.0 to 34.9 percent	15,229	+/-2,295	10.1%	+/-1.5
35.0 percent or more	53,604	+/-3,810	35.5%	+/-2.4
Not computed	9,068	+/-1,750	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Households not paying cash rent are excluded from the calculation of median gross rent.

Telephone service data are not available for certain geographic areas due to problems with data collection of this question that occurred in 2015 and 2016. Both ACS 1-year and ACS 5-year files were affected. It may take several years in the ACS 5-year files until the estimates are available for the geographic areas affected.

While the 2017 American Community Survey (ACS) data generally reflect the July 2015 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineations due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2017 American Community Survey 1-Year Estimates

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

ACS DEMOGRAPHIC AND HOUSING ESTIMATES

2017 American Community Survey 1-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Subject	Rhode Island			
	Estimate	Margin of Error	Percent	Percent Margin of Error
SEX AND AGE				
Total population	1,059,639	*****	1,059,639	(X)
Male	513,198	+/-1,829	48.4%	+/-0.2
Female	546,441	+/-1,829	51.6%	+/-0.2
Sex ratio (males per 100 females)	93.9	+/-0.6	(X)	(X)
Under 5 years	55,019	+/-1,018	5.2%	+/-0.1
5 to 9 years	55,184	+/-2,579	5.2%	+/-0.2
10 to 14 years	59,103	+/-2,852	5.6%	+/-0.3
15 to 19 years	74,913	+/-2,139	7.1%	+/-0.2
20 to 24 years	78,451	+/-2,060	7.4%	+/-0.2
25 to 34 years	145,756	+/-1,768	13.8%	+/-0.2
35 to 44 years	123,187	+/-1,438	11.6%	+/-0.1
45 to 54 years	142,657	+/-1,499	13.5%	+/-0.1
55 to 59 years	75,391	+/-3,123	7.1%	+/-0.3

Native Hawaiian and Other Pacific Islander	1,763	+/-1,145	0.2%	+/-0.1
Some other race	56,403	+/-7,914	5.3%	+/-0.7
HISPANIC OR LATINO AND RACE				
Total population	1,059,639	*****	1,059,639	(X)
Hispanic or Latino (of any race)	163,346	+/-578	15.4%	+/-0.1
Mexican	10,535	+/-2,584	1.0%	+/-0.2
Puerto Rican	40,065	+/-5,925	3.8%	+/-0.6
Cuban	2,103	+/-1,073	0.2%	+/-0.1
Other Hispanic or Latino	110,643	+/-6,527	10.4%	+/-0.6
Not Hispanic or Latino	896,293	+/-578	84.6%	+/-0.1
White alone	763,670	+/-1,641	72.1%	+/-0.2
Black or African American alone	57,196	+/-4,328	5.4%	+/-0.4
American Indian and Alaska Native alone	3,134	+/-1,202	0.3%	+/-0.1

Subject	Rhode Island			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Asian alone	37,798	+/-1,584	3.6%	+/-0.1
Native Hawaiian and Other Pacific Islander alone	1,086	+/-1,167	0.1%	+/-0.1
Some other race alone	7,538	+/-2,730	0.7%	+/-0.3
Two or more races	25,871	+/-3,817	2.4%	+/-0.4
Two races including Some other race	3,290	+/-1,526	0.3%	+/-0.1
Two races excluding Some other race, and Three or more races	22,581	+/-3,432	2.1%	+/-0.3
Total housing units	468,266	+/-90	(X)	(X)
CITIZEN, VOTING AGE POPULATION				
Citizen, 18 and over population	792,337	+/-5,553	792,337	(X)
Male	376,988	+/-3,890	47.6%	+/-0.3
Female	415,349	+/-3,397	52.4%	+/-0.3

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)

While the 2017 American Community Survey (ACS) data generally reflect the July 2015 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineations due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
