INTRODUCTION

State of the State – A Statistical Profile of Rhode Island’s Cities and Towns

From Burrillville to Block Island, from Woonsocket to Westerly, recent demographic and employment trends have impacted the lives of all Rhode Islanders. Incorporating information collected by the United States Department of Commerce and the Rhode Island Department of Labor and Training, State of the State depicts demographic changes and recent employment trends that have impacted our local economies over the last twenty years.

Population diversity based on age, sex, race, and ethnicity, as well as educational attainment, labor force statistics, and English language proficiency of local residents, is encapsulated in statistical profiles for each of Rhode Island’s thirty-nine communities. An overview of local private sector employment by industry sector is also provided on a city and town basis.
